

# Reading Guide – Prepping for Class

The Essentials Series books are some of the most popular publications developed by The National Alliance Research Academy because they each contain a wealth of knowledge about risk management and insurance terms, concepts, coverages and exclusions, and include abundant examples to help explain these fundamentals in language that is easy to understand. We recommend using them as tools to prepare for CIC institutes, CRM courses, and CISR courses, and enhance your understanding of the material to be presented in class. The table below acts as a guide to the chapters of the books which correspond with the material taught in the CIC, CRM, and CISR Programs.

## CIC Commercial Casualty Institute
